1. **What are the session key findings?** What are the new Lesson(s) learned / Scientific progress (since AR5 release, if relevant)?

   Good practices in terms of adaptation measures and options to exist, but are often not visible or shared.

2. **What are the major knowledge Gaps and Research Needs identified in the session?**

   Closer cooperation between DRR and CCA is needed in terms of synergies to prevention of weather related extreme impacts closer collaboration between developed and developing countries in terms of good practice examples of adaptation measures and options.

3. **Did the session discuss/identify promising approaches in the fields of Adaptation and Mitigation, or both?**

   We tried to look at avoiding mal-adaptation in terms of linking CCA and DRR and considering measures that do not negatively impact mitigation efforts negatively.

4. **Are there take-home messages from the session?**

   *(When relevant, please specify targeted group of stakeholders. For example, policy-makers / COP21 negotiators, practitioners (experts, etc.), NGOs, private sector, citizens, media, etc.)*

   Further link CCA and DRR at all levels and scales and mainstream it into project development like infrastructure planning, regional and local planning.

5. **Are there Important Quotes from the session?**
6. Please include any other remark that you might have.
